

# Cities across the state want a tool like HB 1406/SB 5646 to address affordable housing

AWC heard from 81 cities and towns across Washington that they would use the tool that these bills provide; we're confident many more would adopt once passed.

70% of cities need additional resources  
to support affordable housing.

Please pass and fund a sales tax credit tool (**HB 1406/SB 5646**) to allow cities the resources and flexibility to make targeted affordable and supportive housing investments in our communities.

- Our cities face affordable housing challenges across the income spectrum.
- The need for each city is different based on its residents and surrounding communities.
- Local leaders are in a unique position to understand the specific needs of their community.
- This bill would create a long-term, stable funding source that will complement local bonding authority and help cities address the affordable housing challenges facing their city now and into the future.

## HB 1406/SB 5646: Encouraging investment in Affordable and Supportive Housing

These 81 cities indicated in a general survey that they would use this type of tool. We're confident there are many more.
